Markers

Head Stone and a Base is required. Bases are required beneath each head stone placed on a grave. A base must extend 2 inches beyond each side of the monument and is to be placed level with the surrounding ground.

A Monument must be put on all graves after a burial.

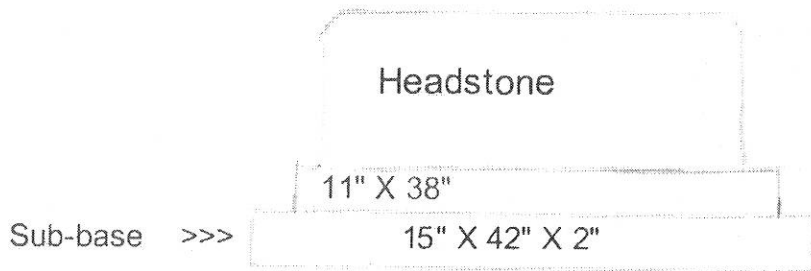

A cement sub-base is required under all Monuments before they are placed on the grave. The Cemetery does not pay for the base.

The footing under the Head Stone is

Sub Base 2 inches thick

Sides 2 inches larger on all 4 sides of the Head Stone
